Sum (351)	nan	nan

Only instances where all algorithms have a value for "avg_dur_gao" are considered. Each table entry gives the sum of "avg_dur_gao" for that domain. The last row reports the sum across all domains.

Sum (219)	2274796.00	2541799.00

Only instances where all algorithms have a value for "cost" are considered. Each table entry gives the sum of "cost" for that domain. The last row reports the sum across all domains.

Geometric mean (351)	0.00	0.00

Only instances where all algorithms have a value for "expansions" are considered. Each table entry gives the geometric mean of "expansions" for that domain. The last row reports the geometric mean across all domains.

Sum (349)	1261677611	1149814822

Only instances where all algorithms have a value for "expansions_until_last_jump" are considered. Each table entry gives the sum of "expansions_until_last_jump" for that domain. The last row reports the sum across all domains.

Sum (351)	1301675841	1173599616

Only instances where all algorithms have a value for "num_gao" are considered. Each table entry gives the sum of "num_gao" for that domain. The last row reports the sum across all domains.

Geometric mean (351)	0.16	0.09

Only instances where all algorithms have a value for "search_time" are considered. Each table entry gives the geometric mean of "search_time" for that domain. The last row reports the geometric mean across all domains.

Only instances where all algorithms have a value for "sg_intitailization.time" are considered. Each table entry gives the sum of "sg_intitailization.time" for that domain. The last row reports the sum across all domains.

Sum (351)	2020.71	1753.46

Only instances where all algorithms have a value for "tot_dur_gao" are considered. Each table entry gives the sum of "tot_dur_gao" for that domain. The last row reports the sum across all domains.

Geometric mean (351)	0.61	0.47

Only instances where all algorithms have a value for "total_time" are considered. Each table entry gives the geometric mean of "total_time" for that domain. The last row reports the geometric mean across all domains.
